

Practice importing a sample paired comparison data file ("Scary" domain)

Data > Import > Paired Comparisons

Input data file: scaryPC.txt

Number of respondents: 17

Number of items: 13

Design file: COMPLETE

Item labels: scarylab.txt

### PAIRED COMPARISON DATA ENTRY EXAMPLE

Instructions:

Life is sometimes uncontrollable. Below you will find several pairs of things that happen in life.

Please circle the item in the pair that you think is MOST uncontrollable.

For example in the pair of CAR versus WEATHER you might circle CAR.

There are no wrong or right answers. We appreciate your participation! Begin!
